SkillCraft Academy

Learn. Innovate. Lead.

BE FUTURE- READY WITH US!

Step beyond coding and build the mindset, skills, and experience of a true software engineer. Our future-focused program blends technical learning with teamwork, project management, and real-world projects to make you industry-ready.

Why Join This Course?

1

EVOLVE FROM CODER TO ENGINEER

Focus on real-world problem-solving, critical thinking, and big-picture engineering.

2

BLEND STUDIES WITH REAL EXPERIENCE

For full-time students: a flexible part-time plan (15–19 hrs/week) that fits your schedule.

3

INDUSTRY-VISIONARY CURRICULUM

Build software, teamwork, and project skills employers want now and in the future.

What You Will Learn

PHASE 1

FOUNDATIONS OF SOFTWARE ENGINEERING

- ✓ Develop an engineering mindset: algorithms, problem-solving, and client-centric thinking.
- ✓ Master Agile principles and project fundamentals.
- ✓ Gain a competitive edge through hands-on experience as a working student.

PHASE 2

BUILDING CORE TECHNICAL SKILLS

- ✓ Learn UI/UX principles and master frontend & backend basics.
- ✓ Work with modern databases and data techniques.
- ✓ Explore specialized IT domains such as AI ethics, DevOps, Blockchain, Cybersecurity, and beyond.

WITH TECHNOLOGY

NEXIVA SERVICES PRIVATE LIMITED

address

2nd floor, 7 th Main Road, II stage Indiranagar Bangalore – 560038

PHASE 3

ADVANCING TO FULL-STACK & LEADERSHIP

- ✓ Strengthen full-stack development skills with automation tools.
- ✓ Apply industry-standard testing methodologies.
- ✓ Develop agile leadership capabilities.
- ✓ Grow project management expertise—integrated throughout your learning journey.

How You Will Learn

- ✓ Blended format : 40% online, 45% workshops/labs, 15% mentorship/networking.
- ✓ Live expert sessions, peer study groups.
- ✓ Regular micro-classes introducing niche IT roles.
- ✓ 1:1 mentorship and career support
- ✓ Build and deploy REAL projects—start building your tech portfolio from Day 1!

PHASE 4

INDUSTRY-READY PROFESSIONAL DEVELOPMENT

- ✓ Gain advanced knowledge in cloud computing, microservices, and security practices.
- ✓ Complete a capstone project to showcase your portfolio.
- ✓ Prepare for careers with workshops, resume building, and interview coaching.

Unique Modules

1

THE WORKING STUDENT ADVANTAGE

Learn how combining education with internships or projects significantly boosts your employability and confidence.

2

SPECIALIZED IT CAREER PATHFINDER

Discover cutting-edge roles, meet guest speakers, set your own “dream job” trajectory.

Outcomes

- ✓ Become a truly “industry-ready” software engineer—creative, resourceful, employable.
- ✓ Leave with a standout portfolio and a network.
- ✓ Gain skills to manage real-world projects and teams.
- ✓ Know how to land your first IT job, and future-proof your career.
- ✓ Build confidence to adapt to new tech and roles.
